

# All in one.

## INTRODUCING A WHOLE NEW CONCEPT: THE POSTPRO™ SD.

Presenting the smart alternative to multi-manufacturer component sampling and hard disk recording systems: New England Digital's PostPro SD. For the first time, random access performance is uninhibited by multi-manufacturer incompatibilities. With the PostPro SD, you get all the editing power of Direct-to-Disk™ recording, plus a fully integrated Synclavier® sound module. Switching between music and effects, sound design and editing, recording and sequencing is truly seamless, truly transparent. The PostPro SD is the first hard disk recorder/editor that lets you go beyond cutting sounds: it allows you to create them. There's also another very important PostPro SD feature: our Total Commitment support package. It means our commitment to you extends beyond technology to offering financing alternatives, training, responsive service and regular software updates.
