

# Synclavier® II

## Digital Synthesis · Music Printing · Real Instruments

The world's most advanced digital synthesis system has just become the world's most advanced Music Printing and Sampling System.

Now, with Synclavier® II's Music Printing Option, performances played on Synclavier® II's keyboard can be transferred and printed out automatically in standard musical notation. This amazing new Option provides a quick, high quality computerized printing of *complete orchestral scores* or *individual parts, piano music, and lead sheets with lyrics*.

Using the new Sample-to-Disk™ Option, you can now record **real instruments** or **whole sections of instruments** into the Synclavier® II and then play them on its keyboard. New England Digital's technological wizardry has made it possible to record or *sample* any analog signal onto a Winchester Disk using a microphone or line-level source. You can record at a sampling rate of **50KHz.** for a minimum of **100 seconds** up to a maximum of **54 minutes.** After recording, sophisticated software techniques provided by New England Digital allow you to analyze the recorded signal, digitally filter out noise or harmonics, and edit different signals together for unique sounds. Once satisfied with your sampled sound, you can easily transfer it to the Synclavier® II's keyboard for real time performance.

The Music Printing and Sample-to-Disk™ Options, advanced as they are, are only part of the incredible Synclavier® II Digital Music System. Since its introduction two years ago, many of the world's most influential musicians, producers and studios have seen and now own a Synclavier® II system themselves.

We invite you to see and hear what they already know, that the future of music is available today from New England Digital.

Synclavier® II digital music systems start at \$13,750.00.
